PROFILE

A Dedicated Data Analyst with a strong foundation in Python programming, specializing in data analysis and visualization. Proficient in utilizing Pandas, NumPy, and Matplotlib to derive actionable insights from complex datasets. Experienced in statistical analysis, predictive modeling, and data-driven decision-making. A detail-oriented problem solver with a passion for leveraging data to drive business solutions.

KEY SKILLS

Proficient in Python for data manipulation, analysis, and visualization with Pandas, NumPy, and Matplotlib, and skilled in SQL for database querying and management.

Experienced in data cleaning, preprocessing, and feature engineering for analysis, with ongoing learning in Deep Learning techniques for advanced data analysis and predictive modeling

Excellent communication and presentation skills, with the ability to translate complex technical concepts into understandable insights for stakeholders.

PROFESSIONAL EXPERIENCE

Risk Data Analyst Intern | RadixTech

June 2024 - August 2024

Analyzed and assessed risk data to identify vulnerabilities and forecast potential risks. Developed predictive models and provided insights to support decision-making, enhancing risk management strategies. Collaborated with teams to integrate data-driven solutions into business operations.

EDUCATION & CERTIFICATIONS

Mehran University of Engineering and Technology

Bachelor of Computer Systems Engineering
(2021 - Present)

- Artificial Intelligence & Deep Learning

NAVTTTC

- Data Analytics (Online)

Google

- Data Visualization (Online)

Coursera

- Web Design and Development

NFTP (National Freelance Training Program)

EXTRACURRICULAR ACTIVITIES

Member, ACM Student Chapter

Mehran UET

Member, PM's Green Youth Movement

Mehran UET

Bytewise Datascience Fellow

Bytewise fellowship program Batch 03
